SICO Bench Mobile Folding Table

- **Flip-up benches cut cleaning time.**
Floors clean easier without moving the whole unit.
- **1/2" (1.3cm) centre gravity lock bar** prevents anyone from raising centre of table by sitting on the end. Easily released from either side.
- **1-1/16" (2.7cm) thick, solid wood core** benches support up to 1,000 lb. centre load.

- **SICO BY-65's nest for compact storage.**
Take up to 50% less space than most competitors' bench tables.
- **Bench tables provide increased seating** per square foot of floor space.

- **Reduce turns in food service areas.**
A SICO BY-65 12' (3658mm) can seat up to 20 elementary age children, maximising space use.

- **Removable benches.** Removing two bolts allows any bench to be removed so wheelchairs can be rolled up to a table. Benches can also be removed for chair use for banquets, meeting, etc.

- **When folded, table is surrounded by steel** for protection from damage in stored position.

WARRANTY
15 years with a lifetime warranty on welds

Quality System Registered to ISO 9001:2000

Top shape	Top dimensions	Top heights	Storage dimensions single unit LxW	Weight
BY65 Rectangular Tables	2440mm x 760mm, 8 adults, 12 children	690mm, 740mm, 810mm	800mm x 1080mm	95kg
