**Saves time and space at a fraction of the cost of a built-in theatre.**

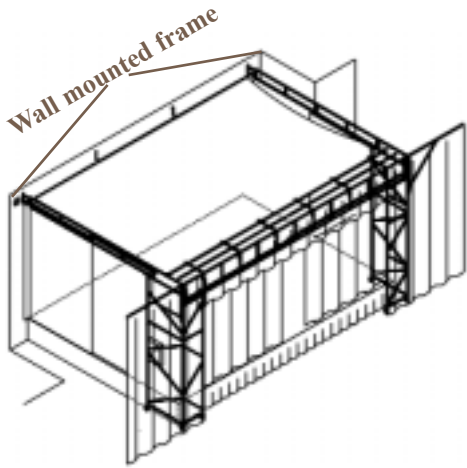

# Save thousands of dollars in construction costs!

## Optimize your multi-purpose room space!

Enjoy the benefits of a theatre without the normal cost or space consumption. Imagine transforming your cafeteria, gymnasium, or multi-purpose room into a professional theatre in minutes. **It's as easy as 1, 2, 3...**

### STEP

# 1

Trusses, rigging, curtains, and lighting are supported by wall mounted frames.

- Open the optional, vinyl protective curtain, revealing the beautiful theatre: Stage sections and accessories are stored within the folded Insta-Theatre.

- The entire Insta-Theatre® stores in a built-in pocket or against a wall in as little as 4 ½' (137cm) of depth.

An optional protective curtain is available to hide the theatre when not in use.

- Mobile folding 1800 stages (included as part of the system) may be used elsewhere in your facility. Simply roll into place and set for use as head-table risers, speaker's platforms, demonstration stages, band and orchestra risers.

Sico Insta-Theatre® includes back, side and front curtains, top canopy, and optional heavy duty protective curtains.

### STEP

# 3

- Roll the easy-to-operate Sico stage sections into place: Power up the pre-installed theatre lights, attach the velcro stage skirting and you are ready for your performance.

Sico's professional staff can help you plan an Insta-Theatre® into your new or existing facility. There is no charge or obligation for this service.

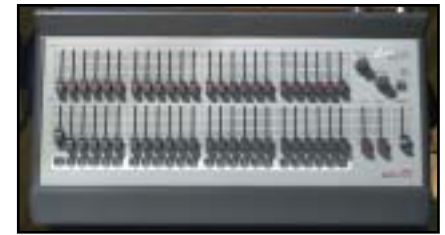

# Sico Insta-Theatre®

Self-contained, full performance lighting system included!

STEP

2

- **Two person set-up:** Simply roll out the front support towers and pivot the curtain tormentors (side wings) to each side. This hides the backstage area from the audience's view.

- **Professional remote lighting control:** Allows complete adjustment of lights from a remote location. Console comes with 50' (1524cm) of cable.

- **Includes the dramatic lighting you'd expect of a professional theatre:**
  - 1) Six Par 56 luminaries and six 6" (15cm) fresnel spotlights - all with 500 watt lamps.
  - 2) Two dimmer bars with six dimmers per bar.
  - 3) Color lenses to produce beautiful lighting effects.

- **220V power distribution cabinet:** A locking security door includes six branch circuit breakers. A frame-mounted line breaker and safety switch cut power to the theatre when it folds back into storage.

- **Storage takes just minutes:** Portable stages are folded up, tormentor wing curtains are folded in, mobile towers are rolled back, and the Insta-Theatre® is covered with its protective curtain.

# Sico Insta-Theatre® Offers Professional Features:

**Pulley system:**  
Makes opening and closing the curtains a breeze for a fully professional production.

**Top canopy combined with side and back curtains:**  
Provides excellent acoustics and prevents light leakage from performance area.

**Two layers of front curtains:**  
1) Optional outer protective curtain is made of heavy vinyl designed to protect inner theatre curtains.  
2) Velour inner theatre curtains are the same as those used on major stages around the country.

**Towers roll easily:**  
on heavy-duty 6" (15cm) casters.

**Designed with security in mind:**  
The corner towers are connected to front and folding top trusses that lock into place. Locks release from ground level.

Folds into a wall recess pocket...

...or against a wall.

Unfolds easily to a full theatre.

**Three sizes of Insta-Theatre® (open):**

- 24' wide, 17' 2" deep (731cm, 523cm)
- 28' wide, 17' 2" deep (853cm, 523cm)
- 32' wide, 17' 2" deep (975cm, 523cm)

All standard sizes are 14' high (427cm)  
Custom sizes available.
